## MOTHER PUTS THE LID ON WILLIE

Perpetual Injunction Issued to  
County Clerk Walker, Pro-  
hibiting Him from Permitting  
Hopeful to Wed.

The marriage license bureau in  
County Clerk Walker's office has  
been dull enough for many a day  
past, goodness knows, but the crowning  
blow fell this morning when Mr.  
Walker received the following writ  
of injunction:

"Cook's, N. M., Feb. 16th, 1914.  
To the Clerk of the Superior Court  
of Albuquerque, New Mexico. I for-  
bid you issuing any marriage license  
to my son Willie; he is under age  
and we are opposed to him getting  
married; he will be 20 years old the  
2 day of this coming April so it is  
over one year until he is of age. I  
hear sign both parents names."

The county clerk has instructed his  
able and enthusiastic assistants in  
the marriage bureau office that when  
Willie shows up with the blushing  
bride there is to be nothing doing.

## QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salsi if your Back  
hurts or Bladder troubles you.

No man or woman who eats meat  
regularly can afford to neglect in-  
cluding the kidneys occasionally.  
Most forms of acid which clogs the kid-  
neys pores so they sluggish filter or  
strain only part of the waste and  
poisons from the blood, then you get  
sick. Nearly all rheumatism, head-  
aches, liver trouble, nervousness,  
constipation, dizziness, sleeplessness,  
bladder disorders come from slug-  
gish kidneys.

The moment you feel a dull ache  
in the kidneys or your back hurts, or  
if the urine is cloudy, offensive, full  
of sediment, streaked with pus, or  
attacked by a sensation of swelling,  
get about four ounces of Jard Salsi  
from any reliable pharmacy and take  
a tablespoonful in a glass of water  
before breakfast for a few days and  
your kidneys will then set fine. This  
famous Salsi is made from the acid  
of grapes and lemon juices combined  
with limes and has been used for  
generations to flush clogged kidneys  
and stimulate them to activity, also  
to neutralize the acids in urine so  
as to lessen excess irritation, thus end-  
ing bladder troubles.

Jard Salsi is inexpensive and can-  
not injure, makes a delightful efferves-  
cent lime-water drink which all  
regular meat eaters should take now  
and then to keep the kidneys clean  
and the blood pure, thereby avoiding  
serious kidney complications.

Woman loves a clear, rosy complexion.  
Burdock Blood Bitters is splen-  
did for purifying the blood, clearing  
the skin, restoring sound digestion.  
All druggists sell it. Price, \$1.00.

Come

## TIJERAS CANYON IS NEXT ON LIST OF ROAD BOOSTERS

Highway Local Last Night  
Confers With Forest Service  
Heads and Decides on Plan  
of Action.

Welcome news, indeed, will it be  
to the campers and tourists of the  
Estancia valley and the autoists of  
all sections to learn that the next  
road in Bernalillo county to be fixed  
is that through Tijeras canyon. Such  
will be the case if plans formed at  
the meeting of the Albuquerque good  
roads local last night are carried out  
and statements made there are found  
on a much fact as the roads  
bothered believe.

The decision to work on the Tijeras  
canyon road followed the announce-  
ment by President C. G. Mardorf of  
the completion of the "mule deal"  
and the statement by A. H. Strong  
that the county road board was dis-  
posed to center all its endeavors for  
a time on the highway to the Estan-  
cilla valley.

Forest Service A. C. Ringland  
was at the meeting and stated that  
the forest service had \$1,800 on hand  
right now for expenditure between  
now and July 1, which was allotted to  
that part of the road through Tije-  
ras canyon which is on the Man-  
zano national forest. But he said  
he did not feel like ordering the ex-  
penditure of this money until I know  
that the road is going to be tied up  
with other good roads on both ends.  
There is no sense in building a little  
section of good road in the middle  
of a stretch and then leaving both  
ends high and dry, any more than  
there is in building a bridge five feet  
in the air and failing to build up  
approaches.

This money is available right now.  
There will be more after the first of  
the fiscal year, perhaps a larger sum,  
and there will be some available each  
year until the road is finished. And  
there will be money for maintenance,  
that is, of our part of the road, but  
I feel that it is right that the con-  
sideration show some effort at co-opera-  
tion before we expend a dollar of it.

We should have a good road con-  
necting with this that we are to  
build.

Mr. Ringland said that James M.  
Mullen and Howard Waha, district  
engineers and Forest Supervisor Bush  
G. Cokins had left for the mountains  
nearly a week ago and were making  
outlines of the entire route with a  
view to road building. He said this  
would be finished within a few days  
more, and offered a copy of it to the  
local for use with the road board and  
as a basis for other work. On re-  
quest, he said, he would be glad to  
have the survey extended to the  
mouth of the canyon.

The local authorized the ways and  
means committee to see the county  
road board and impress upon them  
the importance of Mr. Ringland's of-  
fer, also to arrange a meeting of the  
forest service roads officers, the road  
board and the local's committee. This  
committee was informally instructed to  
impress upon the road board that  
it is in co-operation the forest service  
wanting to help.

**Building Permits in January.**

The city engineer reported building  
permits issued during January to the  
number of 24, having a total esti-  
mated value of \$17,914.

Of the money thus far advanced  
for city hall construction the city en-  
gineer's report showed a total of  
\$15,620 expended up to February  
16th, with a balance on hand of \$75.  
There is a balance in the city building  
fund of approximately \$9,000, or  
more than sufficient to complete the  
building. The city engineer is now  
considering estimates of the furniture  
that will be necessary to fit the  
building for immediate use.

**Committee Reports.**

None of the standing committees  
had reports to submit last night, al-  
though a number of special reports  
were made. The city engineer re-  
ported the completion of the survey of  
North Eighth street.

The mayor called on Alderman  
Skinner in a somewhat hopeless  
tone for a report on the cost of in-  
stalling a sanitary drinking fountain  
at the corner of Second and Central.  
Mr. Skinner, who has been a special  
committee of one on this matter for  
six months or more, replied that he  
was waiting for warmer weather be-  
fore taking the matter up.

Alderman Riddell reported having  
granted permission to the Coleman-  
Blank company to install an automo-  
tive gasoline pump at their plant at  
Sixth and Central for the purpose of  
filling automobile tanks with gaso-  
line without the necessity of bring-  
ing the car into the garage.

**Light Ordered on Tijeras Crossing.**

Chief of Police McMillin reported  
that after a careful examination he  
found the conditions of the Tijeras

avenue grade crossing very unsatis-  
factory. He recommended that the  
derailing switch later be placed in  
the center of the right-of-way in-  
stead of on either side at a distance  
of several feet, but thought the rail-  
road company would object to this  
change. He believed a light should  
be installed at the crossing. At  
present the street car conductors  
have to carry lanterns for night sig-  
naling. After brief discussion the  
mayor instructed the building, light  
and fuel committee to have the rail-  
road company install a light at the  
crossing. In the case of the car  
which became stalled on the cross-  
ing some time ago and on account  
of which the railroad company filed  
a complaint the chief reported that  
his investigation showed it was due  
not to trolley trouble but because the  
power failed while the car was cross-  
ing.

Upon motion of Alderman Clarke,  
the city clerk was instructed to no-  
tify the Selso-Photo shows that as  
usual the license for the show's ap-  
pearance here would be reduced to  
\$1.25 and \$1.50. Clearance Special . . . . .

**Ordinance Ready.**

Responding to a question by Alder-

## PHOENIX HAS EDGE ON ALBUQUERQUE IN REVENUE

Interesting Figures Quoted to  
Council by Mayor Sellers at  
Last Night's Meeting. As-  
sessed Valuation Somewhat  
Larger.

### LIGHT ORDERED PLACED AT TIJERAS CROSSING

Delinquent Sidewalks Must Be  
in Place by May First Next;  
Healthy Bunch of Interest  
Ordered Paid.

Some interesting comparative fig-  
ures regarding the incomes and re-  
quirements for city operation of the  
cities of Phoenix, Ariz., and Albu-  
querque, N. M., were quoted to the  
city council at last night's meeting by  
Mayor Sellers. The mayor read from a  
weekly bulletin issued by Phoenix showing  
that Phoenix city government for the  
next fiscal year will be \$138,897 as against about \$125,000  
Albuquerque; that Phoenix receives  
some \$200,000 yearly from taxes, as against about \$65,000 by  
Albuquerque and that the assessed  
valuation of property in Phoenix is  
\$23,000,000 as against about \$4,000,  
000 in Albuquerque. Phoenix has  
approximately 23,000 more population  
than Albuquerque. The reason for  
the citing of the comparison just at  
this time was not made plain, al-  
though members of the council showed  
keen interest in the facts presented.

Although there was little routine  
business before the council last night  
a number of important city matters  
were disposed of.

**\$8,600 Interest Payment Ordered.**

On motion of Alderman Skinner, inter-  
ested in outstanding bonds was ordered  
paid as follows:

1899 4s . . . . . \$62.30

1901 4s . . . . . 1,005.09

Sewer bonds . . . . . 6,559.62

Total . . . . . \$8,227.91

Alderman Skinner stated that while  
there was not quite enough  
money in the sewer fund to meet the  
sewer bond interest, money now due  
from the county treasurer for city  
purposes, on account of the sewer  
bond issue would be available to  
meet all demands on March 1st, when this interest is due.

### Building Permits in January.

The city engineer reported building  
permits issued during January to the  
number of 24, having a total esti-  
mated value of \$17,914.

The local authorized the ways and  
means committee to see the county  
road board and impress upon them  
the importance of Mr. Ringland's of-  
fer, also to arrange a meeting of the  
forest service roads officers, the road  
board and the local's committee. This  
committee was informally instructed to  
impress upon the road board that  
it is in co-operation the forest service  
wanting to help.

### Committee Reports.

None of the standing committees  
had reports to submit last night, al-  
though a number of special reports  
were made. The city engineer re-  
ported the completion of the survey of  
North Eighth street.

The mayor called on Alderman  
Skinner in a somewhat hopeless  
tone for a report on the cost of in-  
stalling a sanitary drinking fountain  
at the corner of Second and Central.  
Mr. Skinner, who has been a special  
committee of one on this matter for  
six months or more, replied that he  
was waiting for warmer weather be-  
fore taking the matter up.

Alderman Riddell reported having  
granted permission to the Coleman-  
Blank company to install an automo-  
tive gasoline pump at their plant at  
Sixth and Central for the purpose of  
filling automobile tanks with gaso-  
line without the necessity of bring-  
ing the car into the garage.

### Light Ordered on Tijeras Crossing.

Chief of Police McMillin reported  
that after a careful examination he  
found the conditions of the Tijeras

avenue grade crossing very unsatisfactory.

He recommended that the ordinance for  
the construction by the city of all de-  
linquent sidewalks, and the assessing  
of the cost as alien against the prop-  
erty, was now in the hands of his  
stenographer and would be ready  
for the next meeting. He said the  
final limit of the ordinance was May  
1st, so that all sidewalks delinquent  
at that time could be built by the  
city during the summer months.

The mayor reported a protest from  
a lady living at Tenth and Marquette,  
to the effect that she was not receiv-  
ing value for money expended for  
gas and stating that it was believed  
the alleged poor service was due to  
the fact that the property was at the  
end of a main and that sufficient  
pressure was not supplied. Manager  
Van Deuse, of the Albuquerque Gas,  
Electric Light and Power company  
who was present, stated that he did  
not believe the fault due to poor  
pressure, but to an expectation of  
more heat than could be demanded  
for the service paid for. He said the  
remedy was a larger heater. The  
matter was referred to the grievance

The mayor called attention to cer-  
tain electric signs which are not  
burning regularly and the chief of  
police was instructed to check up on  
such signs in the city limits.

**Ordinance No. 523.** requiring the  
grades of all proposed additions to  
the city to conform to the city's es-  
tablished grades as passed by un-  
animous vote.

**Sidewalk Ordinance Ready.**

Responding to a question by Alder-

man Thomas, City Attorney Lewis re-  
ported that the ordinance for the  
construction by the city of all de-  
linquent sidewalks, and the assessing  
of the cost as alien against the prop-  
erty, was now in the hands of his  
stenographer and would be ready  
for the next meeting. He said the  
final limit of the ordinance was May  
1st, so that all sidewalks delinquent  
at that time could be built by the  
city during the summer months.
